From the beginning, Agrisud's purpose has been social solidarity. The target was poverty in poor countries. Ten years ahead of the Millennium Development Goals, our NGO joined the great global fight against poverty.

Many believed at the time, and many still do today, that the answers lay in aid and donations. Straightaway, Jacques Baratier, our founder, with his business-mind-set, saw things the other way round, setting out two principles which were quite revolutionary among development actors: 1/ the market economy is everywhere, and therefore any sustainable initiative must be part and parcel of the local economic fabric as an active and dynamic link in the economic chain; 2/ furthermore, any strong project must be built and run by its owner, who should be supported, not just given aid.

The promotion of family-size enterprises, strongly rooted in their markets, profitable and sustainable: this was – and remains – Agrisud’s objective. May I recall our first motto has been “Fighting poverty through enterprise”.

Yvonnick Huet, our managing director, was on board from the very first day alongside Jacques Baratier. Sylvain Berton and Raphaël Vinchent joined shortly. The trio remains at the helm of Agrisud to this day. In the course of time, the team expanded, now reaching 180 men and women, mainly local agro-engineers and technicians. You will see portraits of most of those who make or have made Agrisud what it is, throughout this report.

Agrisud very early chose to apply its principles to one area: very small agricultural enterprises and food production. We focused on family farms serving local markets with local food. This field seemed economically and socially appropriate, so much the more since food security became a central goal for development.

Our operations started in Congo. We achieved there remarkable results: over 3,000 small farms launched. The 400 plots on the outskirts of Brazzaville looked superb. Jacques, all dressed in white, happily introduced to visitors the market gardeners, who were so proud of their produce!

But Agrisud quickly realised that it was not enough to transfer techniques and develop on-site projects. Cultural and social obstacles were being encountered, often quite different from one country to the next: what value was to be given to economic initiative, to women’s autonomy, to an activity such as growing vegetables? When a family already has its own piece of land, on which it runs very low-yield farming – such as small rice fields in Cambodia or Madagascar – it is not obvious nor easy to become an entrepreneur, with a diversified production and a market-oriented activity.

We therefore had to build up procedures, methods, educational tools and support systems. We tried to do that through grass-root experiments, suited to a broad range of projects. Simultaneously, Agrisud was setting out its technical receipts: cultural processes, soil fertility conservation, low-season crops, economic services, marketing support. Core skills were being developed, exchanges were being organised, such as between farmers in Pointe-Noire and Siem Reap (Cambodia) on mushroom growing, or Paul-from-Congo’s contribution to farmers in southern Morocco! The whole of our experience is transferred on a regular basis to our technical and financial partners.

While the number of countries of operation was increasing, two new approaches were introduced, in pragmatic a way, during the 2000s. Agrisud adopted a sustainable development approach. We emphasised: 1/ preserving resources, stressing first of all the high basic value of soil and water; 2/ ecological practices focused on fertilisation and protection without unnecessary chemical inputs; 3/ improving products and livestock breeds; 4/ cultural processes aiming at a high level of quality which would favour, and no longer harm, the health of farmers and consumers. We also ran experiments, supported by scientific analyses, demonstrating the potential of agriculture to help sequestrate greenhouse gases. Step by step we have become actors in, and advocates of, agroecology. We have shown, backed by our own experience, that agroecology can quite easily reach high yields and efficiently reduce food precariousness in poor rural areas. At the time, we agreed with the UN Special Rapporteur on the Right to food, Olivier de Schutter’s statement that “to feed the world, agroecology surpasses large-scale industrial agriculture.”

Definitely, we believe that agroecology can make a very significant contribution to feeding the world.

We are thus becoming protagonists in an economic and political struggle taking place at a global level. The background is the challenge of the century: how will the world feed, in the near future, nine billion human beings? Facing us are the supporters of a “new Green revolution” behind whom stand many powerful lobbies from the agro-business, genetic engineering and chemicals. Alongside us are some governments, most NGOs on the ground, defenders of the environment and of the producer’s and consumer’s health. The Rio+20 Conference will address these controversial issues.
We today have a twin activity of developing on-site projects and training partners. By transferring our best practices, in terms of agricultural techniques as well as operational management, Agrisud offers its experience, through “learning cycles”, to its partner associations, to local government entities and to professional bodies. Doing so we have forged a network of partner NGOs able to appropriate our expertise and to use it efficiently. This network goes on expanding. Nothing makes us more happy than this expansion.

When Agridel in Niger, Agri-Cam in Cambodia or Jappoo-Développement in Senegal launch projects using the Agrisud approach, they simply develop methods we believe to be vital for humankind. We like that.

Agrisud has a proud record, since to date around 35,000 small farmers can show and say our approach is relevant. I wish to stress the social impact of these activities we launched: 120,000 jobs created and 230,000 persons lifted out of poverty. Such achievements are the fruit of twenty years of hard and professional work by the Agrisud teams under the leadership of Yvonnick. Their enthusiasm and their faith commitment to what still lies ahead, combined with a professional management, have made Agrisud a performing NGO, I can say an efficient “enterprise”, in the fields of poverty and environment.

Celebrating its twentieth anniversary, Agrisud has still much to achieve: many demands to meet, many projects to run and many struggles to lead! The board I chair is both proud of what has been done and ready to support new commitments.

Our ambition is to remain efficient in order to help and face the immense food challenge of this century.

Robert Lion
Chairman

---

Agrisud since 1992

- **17 countries of operation:** Angola - Brazil - Cambodia - Congo - France - Gabon - Haiti - India - Laos - Madagascar - Morocco - Mauritania - Niger - DR Congo - Sao Tome - Senegal - Sri Lanka

- **32,900 VSEs created**
- **153 local organisations strengthened**
- **116,500 long-term jobs created**
- **310,500 people removed from poverty**
For the last 20 years, Agrisud’s teams have never lost sight of their mission: fighting poverty through enterprise and seeking to ensure food security.

They demonstrated this once again in 2011 through their dedication on the fields. With the cooperation of their local partners, they oversaw around 40 projects in 15 different countries, launching 4100 new VSEs.

In total, the 32,900 VSEs created since 1992 produced, in the year 2011 only, nearly 205,000 tons of food. This production generated 46 million euros in net income for families. The economic effects are clear, while the food security gained by these families and the supplies provided to local markets were greatly enhanced.

The social effects are no less significant, since these 32,900 VSEs represent 116,500 long-term jobs, and enable 310,500 people to gradually move from poverty to autonomy: this is indeed the primary impact sought by Agrisud’s actions.

In terms of environmental effects, the agroecological practices implemented in the various projects helped reduce pressure on natural resources (water, soil, biodiversity) and bring down greenhouse gases emissions: no fewer than 2,900 tons of Carbon were sequestered.

As well as their efforts in terms of measuring this environmental footprint, our teams were involved in extensive work intended to more closely determine the impact of our actions in economic and social terms, and to refine the performance measurement indicators for our projects. This work goes on in 2012.

The transfer of good practices to local organisations in 2011 matched the ambitions Agrisud set for itself: 6 “training cycles” in agroecology were conducted in Haiti, Madagascar, Morocco, DR Congo and Senegal, benefiting 58 new local organisations. These organisations joined a network which now numbers 153 NGOs, all strengthened in their capacities to promote agroecology.

Through many speeches and contributions throughout the year 2011, Agrisud’s lobbying demands were heard on several fronts: food security, poverty alleviation, agroecology, NGO-business partnerships, and social entrepreneurship through the Ashoka network. The “Rio+20” summit in June 2012 will allow us to place further emphasis on all these topics.

Our consolidated budget reached 5.2 million euros, 79.3% being publicly funded and 20.7% privately funded. A new contributor is to be noted: the recently formed Association “Les Amis d’Agrisud”, whose aim is to support Agrisud’s development. Its first initiative also proved to be its first great success: the cultural dinner organised on the 13th of December 2011, a success which is likely to be repeated in 2012. Our budgetary balance was achieved once again in 2011, with a small operating surplus.

Our teams and those working alongside them, our partners and our funding providers, ensured Agrisud’s success in 2011. In 2012, the year of Agrisud’s 20th anniversary, the perspectives and new expectations to which Agrisud wants to meet in the best way are numerous. They will be supported with an energy which, without any doubt, will be stronger than ever.

Yvonnick Huet
Chief Executive Officer

Agrisud in 2011

- 15 countries of operation in Africa, Asia, Latin America and France
- 40 development programmes underway
- 178 staffs
  6 in France, 172 on the fields (12 expatriates)
- 32 operational partners in the North and South
- 4,9 million euros invested in these programmes
- 4,100 new family-based agricultural VSEs launched in 2011
- 205,000 tons of food produced in 2011 by 32,900 VSEs
- 46 million euros in profit generated in 2011 by 32,900 VSEs
- 2,900 tons of Carbon sequestered in 2011 by 32,900 VSEs
- 58 organisations in the South trained on best agroecological practices

Breakdown available on the website www.agrisud.org
BRAZIL

BOOSTING THE LOCAL SUPPLY OF FOOD PRODUCTS INTENDED FOR THE CLUB MED VILLAGE OF RIO DAS PEDRAS:

Expected results: 40 agricultural VSEs supported, value chains enhancement and access to the Club Med village.

Budget: €30 K for 2009-2013.

Funding: Club Med.

Project management: Agrisud.

Partnerships: Be-linked, Abio.

BOOOSTING THE LOCAL SUPPLY OF FOOD PRODUCTS INTENDED FOR ACCOR GROUP HOTELS IN RIO DE JANEIRO:

Expected results: 40 agricultural VSEs supported, value chains enhancement and access to Accor-Ibis hotels.

Budget: €30 K for 2009-2013.

Funding: Accor-Ibis.

Project management: Agrisud.

Partnerships: Be-linked, Abio.

CAMBODIA

SUPPORT FOR AGRICULTURAL DEVELOPMENT IN PHNOM PRASAT, PROVINCE OF BANTEAY MEANCHEY:

Expected results: 70 agricultural VSEs supported, transfer of good agroecological practices.

Funding: Laiterie de Saint Denis de l’Hôtel.

Project management: Agrisud.

Partnerships: Agri-Cam, France Volontaires.

FRANCE

OPTIMISATION OF UNSOLD FOOD BANK ITEMS THROUGH THE CREATION OF PROCESSING VSES:

Expected results: Creation of a laboratory and a processing VSE.

Funding: Fondation Entreprise et Solidarité, BABG - Banque Alimentaire Bordeaux et Gironde, Fondation Cantas, ERDF - European Regional Development Fund.

Project management: BABG, Agrisud, CSBN - Centre Social Bordeaux-Nord.

PROMOTION OF LOCAL PRODUCTS VALUE CHAINS FOR THE TOURIST SECTOR, PROVINCES OF SIEM-REAP AND KANDAL:

Expected results: 225 agricultural VSEs supported, access to Accor hotels.

Funding: Accor.

Project management: Agrisud.

Partnerships: Agri-Cam, France Volontaires.

STRENGTHENING OF LOCAL ONG AGRI-CAM:

Expected results: Capacity-building for the promotion of agroecology.

Partnership: France Volontaires.

Project management: Agrisud.

DIVERSIFICATION OF PERI-URBAN AGRICULTURE AND MALNUTRITION ALLEVIATION IN SIEM REAP:

Expected results: 320 agricultural VSEs supported, 1 spirulina production unit created.

Funding: Conseil Général des Hauts-de-Seine, Antenna Technologies, France Volontaires.

Project management: Agrisud.

Partnerships: Agri-Cam, Antenna Technologies, France Volontaires.

PROMOTION OF LOCAL PRODUCTS VALUE CHAINS FOR THE TOURIST SECTOR, PROVINCES OF SIEM-REAP AND KANDAL:

Expected results: 225 agricultural VSEs supported, access to Accor hotels.

Funding: Accor.

Project management: Agrisud.

Partnerships: Agri-Cam, France Volontaires.
GABON

AGRICULTURAL INVESTMENT AND DEVELOPMENT PROGRAMME IN GABON (PRODIAG):

Expected results: 1,000 agricultural VSEs supported, agroecological trial projects.
Funding: Gabonese state, AFD - Agence Française de Développement.
Project management: Operated by IGAD - Institut Gabonais d'Appui au Développement. Supported by Agrisud.
Partnership: CIRAD - Centre International de Recherche Agronomique pour le Développement.

INSTITUT GABONAIS D’APPUI AU DÉVELOPPEMENT:

Expected results: Structural mechanism for advise, project management, support for development initiatives.
Budget: €410 K for 2011.
Funding: Gabonese state / Total Gabon.

AGRICULTURAL AND RURAL DEVELOPMENT PROJECT (PDAR – IFAD) – WOLEU NTEm

Expected results: Establishment of an Agricultural Trades Support Centre, training of agents, diagnostic study of producers’ organisations.
Funding: IFAD.
Project management: IGAD, supported by Agrisud.
Partnership: PDAR (Projet de Développement Agricole et Rural).

HAITI

FOOD SECURITY AND FIGHTING POVERTY IN NORTHERN HAITI:

Expected results: 820 agricultural VSEs supported.
Budget: €1,026 K for 2010-2013.
Funding: Conseil Régional d’Aquitaine, MAE - Ministère français des Affaires Étrangères, Fondation Entreprise et Solidarité, ESF, Agrisud.
Project management: Agrisud.
Partnership: Vétérimed.

LAOS

FOOD SECURITY FOR WOMEN AND RURAL POOR IN THE DISTRICT OF VIENGKHAM, PROVINCE OF LUANG PRABANG:

Expected results: 508 agricultural VSEs supported in 25 villages, 10 villages supplied with drinking water.
Funding: EU – European Union, IRD – Institut de Recherche pour le Développement, France Volontaires, Agrisud.
Project management: Agrisud.
Partnerships: PAFO Luang Prabang, Lao Women Union, IRD-CIFOR, France Volontaires.

INDIA

DIVERSIFICATION OF AGRICULTURAL PRODUCTION AND SUPPORT TO PRODUCERS OF AROMATIC PLANTS AND SPICES IN SAHASPUR BLOCK, DEHRA DUN:

Expected results: 135 agricultural VSEs and a distillation workshop supported.
Budget: €23 K for 2010-2012.
Funding: Naturex un Monde Par Tous, Agrisud, HARC - Himalayan Action Research Center.
Project management: Agrisud.
Partnership: HARC.

TRAINING CYCLE FOR THE DIFFUSION OF AGROECOLOGICAL PRACTICES:

Expected results: 11 organisations trained on best agroecological practices.
Budget: €25 K for 2011.
Funding: Conseil Régional d’Aquitaine, ESF “Les Cayes”.
Project management: Agrisud.
Partnership: Vétérimed.
MADAGASCAR

PROFESSIONALISATION OF AGRICULTURE IN THE ITASY REGION:
Expected results: 1,060 agricultural VSEs supported in 6 communes, a training centre set up.
Funding: Conseil Régional d’Aquitaine, Fondation Entreprise et Solidarité, IFAD - International Fund for Agricultural Development / PARECAM, Agrisud.
Project management: Agrisud.
Partnerships: AMADESE - Association Malagasy pour le Développement Économique, Social et Environnemental, Ilofosana.

EVALUATION OF THE CARBON FOOTPRINT OF ITASY PROJECT FARMING MODELS:
Expected results: Measurement of environmental impact in terms of Carbon footprint for the various farming models proposed within the framework of the Itasy project.
Budget: €24 K for 2010-2012.
Funding: Veolia Environnement.
Project management: Agrisud.
Partnerships: IRD - Institut de Recherche pour le Développement, LRI - Laboratoire des Radioisotopes de l’Université d’Antananarivo.

SMALL-SCALE IRRIGATION FOR SUSTAINABLE MARKET GARDENING IN THE PERIPHERY OF ANTANANARIVO:
Expected results: 75 agricultural VSEs supported.
Funding: ESF – Eau Sans Frontières, Fondation Entreprise et Solidarité, Agrisud.
Project management: Agrisud.
Partnerships: 3 villages in Fitfama and city of Antananarivo.

AGROFORESTRY AND FARM FORESTERY IN ITASY - MAHAVOTA:
Expected results: 1,200 agricultural VSEs supported, evaluation of Carbon footprint.
Funding: AFD, GoodPlanet, Conseil Régional d’Aquitaine.
Project Managers: GoodPlanet, Agrisud.
Partnerships: GoodPlanet, AMADESE, IRD-LRI, IOGA.

TRAINING CYCLE FOR DIFFUSION OF AGROECOLOGICAL PRACTICES:
Expected results: 12 organisations trained on best agroecological practices.
Budget: Itasy budget for 2011.
Funding: Conseil Régional d’Aquitaine.

MOROCCO

PROFESSIONALISATION OF FAMILY FARMING IN OASES IN THE PROVINCES OF ZAGORA, TINGHIR AND OUARZAZATE:
Expected results: 120 agricultural VSEs supported, structure given to industry, and access to Accor hotels.
Funding: Accor, MC2 Partenaire / In Extenso, Naturex, CFSI.
Project management: Agrisud.
Partnerships: Cœur de Palmier, ORMVAO Ouarzazate, AMAID.

PROFESSIONALISATION OF FRUIT FARMS AND PRODUCTION MARKETING, IGRAN N’ASNI, PROVINCE OF AL HAOUZ:
Expected results: 40 agricultural VSEs supported, 1 cooperative created, industry given structure and access to the Club Med villages market.
Budget: €65 K for 2010-2012.
Funding: Club Med, Fondation Norsys.
Project Managers: Agrisud, Fondation Norsys.
Partnerships: Fondation Norsys, Direction Départementale de l’Agriculture, Association Tifaouin pour le Développement, BEM – Bordeaux Ecole de Management.

TRAINING CYCLE FOR DIFFUSION OF AGROECOLOGICAL PRACTICES:
Expected results: 21 Moroccan and Tunisian participants trained on best agroecological practices; a guide to good sheep farming practices in southern Morocco produced.
Funding: CDC, ORMVAO.
Partnership: ORMVAO

MAURITANIA

REDUCTION OF THE IMPACT OF SOARING FOOD PRICES AND FOOD VULNERABILITY AMONG COMMUNITIES IN BRAKNA AND GORGOL:
Expected results: 2,805 agricultural VSEs, including 2,340 women market gardeners supported.
Budget: 1,522 K€ sur 2010-2011.
Funding: EU – European Union, CRF – Croix Rouge Française.
Project management: CRF, supported by Agrisud.
Partnerships: CRF, CRM - Croissant Rouge Mauritanien.
DR CONGO

SUPPORT FOR SUSTAINABLE DEVELOPMENT OF AGRICULTURAL ACTIVITIES AND VALUE CHAINS IN THE CATARACTES DISTRICT, BAS-CONGO:

Expected results: 1,000 agricultural VSEs supported.
Project management: Agrisud.
Partnerships: CAVTK - Centre Agronomique Vétérinaire Tropical de Kinshasa, Agridev - Association congolaise d’Appui au Développement.

SUPPORT FOR SUSTAINABLE DEVELOPMENT OF AGRICULTURAL VALUE CHAINS IN NORD-KIVU, PROVINCE OF NORD-KIVU:

Expected results: 1,680 agricultural VSEs supported.
Budget: €1,889 K for 2009-2013.
Funding: EU – European Union, Biochem, Agrisud.
Project management: Agrisud.
Partnerships: SYDIP- SYndicat de Défense des Intérêts des Paysans, CAVTK, Agridev, France Volontaires.

SUPPORT FOR FOOD SECURITY IN WESTERN CONGO, KIMPESE, BAS-CONGO:

Expected results: 1,200 agricultural VSEs supported.
Budget: €1,350 K for 2010-2011.
Project management: Agrisud.
Partnerships: CRAFOD - Centre Régional d’Appui et de Formation pour le Développement, CAVTK, Agridev, France Volontaires.

SUPPORT FOR SUSTAINABLE DEVELOPMENT OF AGRICULTURAL ACTIVITIES AND VALUE CHAINS IN LOUZO, BAS-CONGO:

Expected results: 2,000 agricultural VSEs supported.
Budget: €2,676 K for 2010-2014.
Funding: EU – European Union, WW - Villages et Villes à Vivre, Office congolais des routes, CTB.
Project management: Agrisud.
Partnerships: CRAFOD, Agridev, France Volontaires.

TRAINING CYCLES FOR DIFFUSION OF AGROECOLOGICAL PRACTICES:

Expected results: 2 cycles completed. 38 participants from 16 organisations trained on best agroecological practices.
Budget: €50 K for 2011.
Funding: Caritas, UNDP (PANA-ASA), EU.
Project management: Agrisud.

SAO TOME E PRINCIPE

PROFESSIONALISATION OF ORGANIC AND FAIR-TRADE PEPPER AND SPICES VALUE CHAINS:

Expected results: 400 pepper and spice production VSEs supported, structure given to export sector.
Funding: IFAD - International Fund for Agricultural Development, Agrisud, Hom&Ter.
Project management: PAPAFPA - Programme d’Appui Participatif à l’Agriculture Familiale et à la Pêche Artisanale, supported by Agrisud and Hom&Ter.
Partnerships: Hom&Ter Développement, PAPAFPA.

SENEGAL

STRENGTHENING OF LOCAL VALUE CHAINS SUPPLYING FRESH PRODUCTS TO CLUB MED IN CAP SKIRRING:

Expected results: 60 market-gardening VSEs supported, sector given structure and access to the Club Med village.
Funding: Club Med.
Project management: Agrisud.
Partnerships: Jappoo Développement, CPAS - Centre de Promotion Agricole et Sociale de Diembering, BEM – Bordeaux Ecole de Management.

TRAINING CYCLE FOR DIFFUSION OF AGROECOLOGICAL PRACTICES:

Expected results: 26 participants from 17 organisations in Senegal, Burkina Faso and Niger trained on best agroecological practices.
Budget: €25 K for 2011.
Funding: Veolia Environnement.
Project management: Agrisud.
Partenaire: Jappoo Développement.
BENIN – IVORY COST

DEVELOPMENT OF MUNICIPAL KNOW-HOW IN THE DEVELOPMENT OF FLOOD-RISK AND INSALUBRIUS AREAS IN ABIDJAN & COTONOU:

Expected results: Contribution to the development of communal skills in the joint management of insalubrious and flood-risk urban spaces using an approach of environmental preservation and sustainable optimisation through the creation of green and agricultural spaces.

Budget: €1,200 K for 2012-2014.

Funding: EU – European Union, Mairie de Paris, Agrisud - France Volontaires.

Project management: Mairie de Paris, supported by Agrisud and Ecole Polytechnique de Turin.

Partners: Mairie de Cotonou, District d'Abidjan, UVICOCI, Université des Collectivités, France Volontaires.

CAMBODIA

TRAINING CYCLES FOR THE DIFFUSION OF AGROECOLOGICAL PRACTICES:

Expected results: 2 TRAINING CYCLES for 40 participants from 15 to 20 organisations trained on best agroecological practices.

Budget: €35 K for 2012.

Funding: Participating organisations, LSDH – Laiterie de Saint Denis de l'Hôtel, CDC, others.

Project management: Agrisud.

Partnerships: Agri-Carn, France Volontaires.

FRANCE

"LA RUCHE" PROJECT - PAYS MÉDOC:

Expected results: Feasibility study for the creation of a short-circuit market-gardening business incubator.

Budget: €48 K for 2012.

Funding: Pays Médoc, European Union.

Project management: Agrisud.

REINTEGRATION PROJECT BY VSES IN SAUMUROIS:

Expected results: Diagnostic study for the creation of VSEs in the agricultural and food sectors.

Budget: €30 K for 2012.

Funding: Fondation France Champignons.

Project management: Agrisud.

GABON

TRAINING CYCLES FOR DIFFUSION OF AGROECOLOGICAL PRACTICES:

Expected results: 2 TRAINING CYCLES for 40 participants from IGAD trained on best agroecological practices.

Budget: €30 K for 2012.

Funding: Gabonese state, AFD within the framework of PRODIAG.

Project management: IGAD, operator Agrisud.

SUSTAINABLE DEVELOPMENT PROJECT IN AWOUN:

Expected results: 8 market-gardening VSEs and 2 cassava processing workshops set up.

Budget: €126 k for 2011-2012.

Funding: Shell Gabon SA.

Project management: IGAD, supported by Agrisud.

COUCAL DEVELOPMENT PROJECT:

Expected results: 2 transfer workshops + 5 food-crop farms set up.

Budget: €27 k for 2012.

Funding: Maurel et Prom.

Project management: IGAD, supported by Agrisud.

PORT-GENTIL SANITATION PROJECT:

Expected results: Survey of producers’ needs in terms of organic materials and implementation of a trial protocol for compost produced from processed sewage.

Budget: €40 K for 2012-2014.

Funding: Toilettes du Monde.

Project management: IGAD, supported by Agrisud.

Partnership: Toilettes du Monde.

HAITI

PILOT PROJECT FOR DIVERSIFICATION THROUGH INTRODUCTION OF MARKET-GARDENING PLOTS IN LIMBE AND BAS-LIMBE – CAP HAITIEN:

Expected results: improved activity for 40 market-gardening producers, 4 intrant stores created, local market better supplied.

Funding: ESF – Eau sans Frontières.

Project management: Agrisud.

Partnership: Vétérimed.

INDIA

STRENGTHENING OF AGRICULTURAL PRODUCTION SYSTEMS THROUGH SPICE CULTIVATION, PANCHAYAT OF MASRASPATTI - UTTARAKHAND:

Expected results: 100 agricultural families supported in diversifying their activities with spice plants.

Funding: Currently being sought.

Project management: Agrisud.

Partnership: HARC - Himalayan Action Research Center.

LAOS

IMPROVING AGRICULTURAL PRACTICES FOR BETTER ENVIRONMENTAL MANAGEMENT, PROVINCE OF LUANG PRABANG:

Expected results: 1,000 agricultural VSEs supported in 30 villages in 2 of the poorest districts in the country (districts of Viengkham and Pakseng).

Budget: €1,500 K for 2013-2016.

Funding: EU - European Union, France Volontaires, Agrisud and partners.

Project management: Agrisud.

Partnerships: PAFO, Lao Women Union, France Volontaires.
NIGER
ACCESS TO DRINKING WATER FOR MARGINALISED COMMUNITIES, THROUGH SUPPORT TO VSE DEVELOPMENT IN THE PERIPHERY OF DOSSO:
Expected results: 16 agricultural VSEs supported within 2 perimeters.
Budget: €50 K for 2012.
Funding: Veolia Environnement.
Project management: Agrisud.

MADAGASCAR
PROFESSIONNALISATION OF PERI-URBAN AGRICULTURE AND SUSTAINABLE DEVELOPMENT IN ANTANANARIVO:
Expected results: 80 agricultural VSEs supported.
Budget: €120 K for 2012-2013.
Funding: Still to be identified.
Project management: Agrisud.
Partnerships: Communes of Fiftama and city of Antananarivo, CTHA-Centre Technique Horticole d’Antananarivo.

IMPROVEMENT IN ABILITY OF CIVIL SOCIETY ORGANISATIONS TO SUPPORT INCOME-GENERATING ACTIVITIES IN RURAL AREAS IN THE HIGH PLATEAUX:
Expected results: 60 Madagascan organisations strengthened in their ability to promote income-generating agricultural activities.
Funding: European Union, Agrisud, CITE.
Project management: Agrisud.
Partnerships: CITE.

TRAINING CYCLES FOR THE DIFFUSION OF AGROECOLOGICAL PRACTICES:
Expected results: 20 Madagascan organisations trained on best agroecological practices.
Budget: €25 K for 2012.
Funding: AFD, GoodPlanet.
Project management: Agrisud.

MOROCCO
TAMOUNT PROJECT:
Expected results: 135 farms in 11 villages, 7 cooperative groups created and/or strengthened, boosting of short circuits for optimisation of products.
Funding: Région Aquitaine, Fondation Crédit Coopératif (pending confirmation).
Project management: Agrisud.
Partnership: ORMVAO, Cœur de Palmier association.

DR CONGO
TRAINING CYCLE FOR THE DIFFUSION OF AGROECOLOGICAL PRACTICES:
Expected results: 20 participants in the APROFIL project and its operational partners trained on best agroecological practices.
Budget: Budget APROFIL.
Funding: European Union.
Project management: Agrisud.

TUNISIA
BOOSTING THE LOCAL SUPPLY OF FOOD PRODUCTS INTENDED FOR CLUB MED IN DJERBA:
Expected results: 15 agricultural VSEs supported (production diversified), value chains enhancement and access to the Club Med village.
Budget: €30 K for 2012-2014.
Project management: Agrisud.
Funding: Club Med.

SAO TOME E PRINCIPE
TRAINING CYCLE FOR THE DIFFUSION OF AGROECOLOGICAL PRACTICES:
Expected results: 20 participants from the organic “pepper, coffee and cocoa” sector trained on best agroecological practices.
Budget: €25 K for 2012.
Funding: PAPAFPA-AFD.
Project management: PAPAFPA, support from Agrisud.
Partnership: PAPAFPA.

SENEGAL
STRENGTHENING OF JAPPOO MEMBER ORGANISATIONS AND DEVELOPMENT OF MARKET GARDENING IN THE MBOUR AREA:
Expected results: 6 support organisations strengthened, 60 farms supported through the introduction of agroecological practices, production valorization through short circuits.
Funding: CFSD-FDF.
Partnership: Jappoo Développement.
In order to improve the quality of operations among communities, Agrisud intends to enhance the skills of the local organisations (NGOs, associations, professional groups; Agrisud project teams) through "training cycles". An initial cycle (CDA), based on a transfer of knowledge and know-how useful to implementation of sustainable development programmes focused on very small enterprises (VSEs), has enabled the strengthening of 75 organisations in both South and North in terms of their capacity to:
- conduct a diagnostic study and draw up a development support proposal for the VSEs;
- contribute to the assessment process, capitalise on and communicate on achievements;
- implement a support project for the VSEs.

Based on the guidebook “Agroecology, best practices” published by Agrisud in 2010, a second training cycle (CAA) has been elaborated to facilitate the appropriation of these agroecological practices. It is based on the transfer of methods and tools for the purposes of:
- understanding agroecology and its economic, social and environmental dimensions;
- understanding the how to manage the elements of an agro-system (soil, water, plants and landscape);
- analysing an operational context and identifying the appropriate agroecological practices;
- being able to diffuse the practices identified (technical skills and teaching methods).

The network of 97 organisations benefiting from Agrisud training cycles since 2004

In 2011, 6 agroecology training cycles completed:
