EDITORIAL: FIELD FEEDBACK

After visiting two Agrisud projects in Laos and Cambodia in March 2013, here are the impressions I have already presented to management and staff of our association.

These are two projects, one completed in 2012 and the other coming to an end in mid-2013, which have prospects of being extended if the expected financing is received. The figures on their objectives and financial packages are presented below this editorial.

Siem Reap in Cambodia is a booming town near the Angkor Temples, in familiar terrain for Agrisud: we launched over 2,500 very small enterprises there over the years 1995 - 2005. The sites are easily accessible and close to local markets, there is water not too far beneath the surface and the soils are good for crops, as long as they are protected. And yet most of the small farmers here draw little benefit from the development of tourism.

The district of Viengkham in the North of Laos is mountainous and a long way from any towns. The forests there have been almost completely ransacked to make way for growing rain-fed rice, a particularly difficult activity generally carried out in poor conditions with excessively short rotation intervals and low yields. The villages are poor, have no electricity and usually no water supply: it can take villagers up to four hours of walking across steep terrain with drums on their backs to get water – a chore generally reserved for women. Food insecurity can be an issue for as much as six months a year.

In both cases, Agrisud has applied its usual approach: creating or reinforcing family-run VSEs, training farmers, providing support through master farmers trained on our learning cycles, organising sales and collaborating with local partners, whether associations or public authorities.

In both cases, the main outcomes are twofold in the Agrisud approach:

- “fighting poverty through enterprise”: we develop income-generating activities (IGA). The small farmers escape from food insecurity by selling their produce on local markets, often in the village they live in, and climb their way up the “Agrisud scale” from insecurity to autonomy;

- “…and food insecurity, too”: producing vegetables or fruit contributes to supplying good-quality products to local markets and for farmer’s families. Thanks to agro-ecological practices, the small farmers can do without chemical inputs and still improve their yields. Very often, they take part more effectively in a form of circular economy, with waste from the farm being used as soil fertilizers and various crops being used to feed poultry and swine.

Thanks to the Siem Reap project, local farmers now provide regular supplies to the Sofitel Hotel, to the satisfaction of both parties. This echoes what Agrisud has already undertaken in four countries of Africa and Latin America with the Club Méditerranée. Other niches are being explored in addition to hotels, such as growing the organic produce that is much sought-after among expats, and sales on market stands...

In Laos, Agrisud applied the LANN (Linking Agriculture, Natural resources and Nutrition) programme which contributes to securing food supplies.

New aspects are also being added to this “core”, however: an emphasis on malnutrition, hygiene and diet education; water gravity fed systems; awareness raising on women’s rights and contraception; in application of the “Participatory Land Use Planning” (PLUP) in Laos, a collective process for each village organising use of the land and sharing out the tasks. These actions conducted with local partners, within the framework of the projects headed by Agrisud, endow the projects with a community development dimension and contribute to establishing participative approaches and to the appropriation of farming and diet issues by the inhabitants.

The European Union has had the Viengkham programme evaluated, as it finances a large part of it. The assessments are positive: despite regretting the fact that the project is so short – due to its financing – the assessor considers that it enabled one-third of the families in 25 villages to become producers and was “a great success in such a short time”. Similarly, the Hauts-de-Seine Local Council has made several site visits and has nothing but praise for the Siem Reap project it has financed and which it has decided to renew for a further three years, working with new farmers.

Cambodia / Siem Reap
Diversification of suburban agriculture and fight against malnutrition:

Expected results: 320 agricultural VSEs supported, 1 spiruline production unit created.

Financing: Hauts-de-Seine Local Council, Antenna Technologies, French Foreign Affairs Ministry, France Volontaires, AGRISUD.

Partnerships: AGRICAM, Antenna Technologies, France Volontaires.

Laos / Luang Prabang
Food security for poor women and families in the Viengkham district:

Results achieved: 508 agricultural VSEs supported, access to drinking water, nutrition and territorial management.

Budget: €519K over 2009-2012.

Financing: European Union, French Foreign Affairs Ministry, France Volontaires, AGRISUD.

Partnerships: Provincial Agriculture & Forestry Office Luang Prabang, France Volontaires, IRD Institut de Recherche pour le Développement / CIFOR-NAFRI.
Adieu Stéphane

Since the beginning of 2013, Agrisud has been in mourning for Stéphane Hessel. This great figure and planetary advocate of human rights (he contributed to the Universal Declaration of Human Rights in San Francisco in 1946), of minorities, peoples in servitude and sustainable development, backed Agrisud and its action.

He accepted to join us, to our great happiness and pride, sitting on our Board for many years, always loyal, attentive and a source of new ideas, ways forward and precious support, livening up our meetings with poems he would recite like a magician. Agrisud would like to express its immense gratitude to him.

For Agrisud, such operations are a satisfaction in that they correspond closely to our aims.

One key success factor is the quality of the project managers that are recruited and their teams, appointed and very closely supported by Agrisud headquarters, like all fifteen managers currently at work in as many different countries. In Laos and Cambodia, Claire and Julie, our two young project managers, initially began as international solidarity volunteer workers before becoming employees of our association. They impressed me by their ability to set up and lead their teams and impose themselves in complicated institutional and human environments.

One recurring question, as in all our operations, is that of the sustainability over time of the farms that are set up and supported (all too briefly) by the projects. The financing we get from our various donors generally has too short term, in the region of two years, when four or five would be needed to support the farmers properly through their first crop cycles, before handing over to our local partners.
Agrisud in 2012

- 16 countries in Africa, Asia, Latin America and France
- 40 development programmes underway
- 180 staff from north and south
- 34 operational partners in France, 174 in the field (12 expats)
- €5.9 million committed to these programmes
- 4,500 family-run agricultural VSEs launched in 2012
- 230,000 tonnes of food produced in 2012 by 37,400 VSEs
- €53 million in net income generated in 2012 by 37,400 VSEs
- 11,200 tonnes of carbon sequestered in 2012 by 37,400 VSEs
- 50 southern organisations now enjoy better support capacities

In 2012, with the support of their local partners, Agrisud teams conducted some forty or so projects in 16 countries, launching 4,500 new family-run agricultural VSEs. These projects brought the number of VSEs created since 1992 to 37,400. For 2012 alone, these VSEs produced over 230,000 tonnes of food and generated €53 million in net income for families.

The economic effects are there to be seen, with improved food security for families and supplies to local markets. The social effects, the core purpose of Agrisud, are just as great: these 37,400 VSEs represent 132,500 sustainable jobs and have taken 353,500 people from poverty to autonomy. The environmental effects grow with each passing year, as these VSEs come to master agro-ecological techniques and contribute to limiting pressure on natural resources and cutting greenhouse gas emissions by sequestration of 11,200 tonnes of carbon in 2012.

The transfer of these practices has been facilitated by 5 “Agro-Ecology Learning Cycles” held in Cambodia, Madagascar, Morocco and Tunisia for the benefit of 50 new organisations. These organisations have now joined a network of 144 NGOs and associations trained to boost their action capacities.

By their practical action in the field throughout 2012, Agrisud teams have provided living testimony of the fight against poverty, in favour of food security and agro-ecology, of the NGO-enterprise partnership and social entrepreneurship. The “Rio+20” summit in June 2012 provided an opportunity to give particular resonance to these messages.

Thanks to the support of our financial backers, our consolidated budget reached €6 million, with 73.1% from public funds and 26.9% private. The budget was balanced once again in 2012.

Despite a difficult environment, 2012 demonstrated the vitality of our association and the commitment of our teams and all our partners. Because the context is ever-more difficult, we feel comforted in the choice we made 20 years ago to follow Jacques Baratier.

Yvonnick Huet
Chief Executive Officer

September 2012: a very special event for the Agrisud teams was the opportunity to celebrate the 20th anniversary of our association being created.

The main management staff and operational partners from 15 different countries came together from 10 to 16 September in Frontenac, birthplace of Agrisud, to take part in a number of events, with two particular highlights:

The “Rencontres d’Agrisud”

These special moments were an opportunity for the teams to get to know each other better, discuss and build projects for the network.

They also provided a chance to share in some moments of conviviality, including our main technical and financial partners to mark this anniversary year.

8-year partnership with the Aquitaine Region

The Aquitaine Region played host to Agrisud, its teams and partners in Aquitaine for an evening on the theme “Fighting poverty and food insecurity through enterprise: 4 continents, 6 countries, 8 years of partnership”. On this occasion, the Presidents of Aquitaine Regional Council and Agrisud officially sealed the reinforcement of their partnership for coming years.

OPERATIONS UNDERWAY

BRAZIL

BOOSTING LOCAL FOOD SUPPLY FOR THE CLUB MED IN RIO DAS PEDRAS:

Expected results: 1 grouping supported, 1 supply chain organised with 9 agricultural VSEs supported and given access to the Club Med holiday village.
Budget: €40K over 2009-2013.
Financing: Club Med.
Project management: AGRISUD.
Partners: Be-linked, Rede Ecológica.

DIVERSIFYING PERIURBAN AGRICULTURE AND FIGHTING AGAINST MALNUTRITION IN SIEM-REAP:

Expected results: 320 agricultural VSEs supported, 1 spiruline production unit created.
Financing: Hauts-de-Seine Local Council, Antenna Technologies, France Volontaires.
Project management: AGRISUD.
Partners: AGRICAM, Antenna Technologies, France Volontaires.

CAMBODIA

DEVELOPING LOCAL PRODUCTION FOR TOURISM, SIEM-REAP AND KANDAL PROVINCES:

Expected results: 225 agricultural VSEs supported, access to Accor Group hotels.
Financing: Accor.
Project management: AGRISUD.
Partners: AGRICAM, France Volontaires.

PROFESSIONALISING PERIURBAN AGRICULTURE IN PHNOM PENH - PREK TA LAY, KANDAL PROVINCE:

Expected results: 120 agricultural VSEs supported.
Budget: €52K over 2010-2012.
Financing: Aquitaine Regional Council, ESFI, Accor, AGRISUD.
Project management: AGRISUD.
Partners: AGRICAM, France Volontaires.

FRANCE

RECYCLING OF UNSOLD FOOD BANK PRODUCTS BY PROCESSING VSES:

Expected results: practical study to conduct modelling of processing VSEs.
Budget: €139K over 2011-2012.
Project management: BABG, AGRISUD, CSBN - Centre Social Bordeaux-Nord.

“LA RUCHE” PROJECT - PAYS MÉDOC:

Expected results: 1 feasibility study conducted in setting up a VSEs incubator for short-circuit vegetable farming.
Budget: €48K over 2012.
Project management: AGRISUD.
Partners: Pays Médoc, CFPPA - Centre de Formation Professionnelle et de Promotion Agricole de Bordeaux Gironde.

SUPPORTING THE CREATION OF AN ENTERPRISE FOUNDATION IN THE PAYS DE LOIRE REGION:

Expected results: 1 study conducted into positioning of the project for a Foundation to create VSEs in farming and agribusiness.
Budget: €30K over 2012.
Financing: Fondation France Champignons.
Project management: AGRISUD.
GABON
AGRICULTURAL DEVELOPMENT AND INVESTMENT PROGRAMME IN GABON (PRODIAG):
Expected results: 1,000 Agricultural VSEs supported, promotion of agro-ecological systems and practices.
Budget: €20,000K over 2011-2016.
Project management: IGAD - Institut Gabonais d’Appui au Développement, support from AGRISUD.
Partnership: CIRAD, CARBAP.

SUSTAINABLE DEVELOPMENT PROJECT IN AWOUN:
Expected results: 8 market gardening VSEs and 2 manioc transformation workshops set up.
Financing: Shell Gabon SA.
Project management: IGAD, support from AGRISUD.

COUCAL - AZENDJE DEVELOPMENT PROJECT:
Expected results: 3 manioc transformation workshops set up.
Financing: Maurel & Prom.
Project management: IGAD, Support from AGRISUD.
Partners: CIRAD, CARBAP.

INSTITUT GABONAIS D’APPUI AU DÉVELOPPEMENT:
Expected results: advisory organisation, project management and support for development initiatives.
Budget: €420K over 2012.
Financing: State of Gabon, Total Gabon.

HAITI
FOOD SECURITY SECURITY AND FIGHT AGAINST POVERTY IN NORTH HAITI:
Expected results: 820 agricultural VSEs supported.
Budget: €893K over 2010-2013.
Financing: Aquitaine Regional Council, French Foreign Affairs Ministry, Fondation Entreprise et Solidarité, ESP, Oxfam, AGRISUD.
Project management: AGRISUD.

INDIA
DIVERSIFYING AGRICULTURAL PRODUCTION AND SUPPORT FOR HERB AND SPICE PRODUCERS IN THE SAHASPUR BLOCK, DEHRA DUN:
Expected results: 100 agricultural VSEs and a distillation unit supported.
Budget: €23K over 2010-2012.
Project management: AGRISUD.
Partners: HARC.

LAOS
FOOD SECURITY FOR FOR WOMEN AND RURAL POOR IN THE VIENGKHAM DISTRICT, LUANG PRABANG PROVINCE:
Expected results: 508 agricultural VSEs supported in 25 villages, action on drinking water, nutrition and land management in 10 villages. Capitalisation work in 2012.
Budget: €519K over 2009-2012.
Financing: European Union, French Foreign Affairs Ministry / France Volontaires, AGRISUD.
Project management: AGRISUD.

MADAGASCAR
PROFESSIONALISING AGRICULTURE IN THE ITASY REGION:
Expected results: 1,060 agricultural VSEs supported in 10 municipalities, one training centre created.
Financing: Aquitaine Regional Council, Fondation Entreprise et Solidarité, FIDA, PARECAM, AGRISUD.
Project management: AGRISUD.
Partners: Ilofosana.

ITASY PROJECT FARMING MODEL CARBON FOOTPRINT ASSESSMENT:
Expected results: measurement of the carbon footprint of the different farming models proposed in the Itasy project.
Budget: €24K over 2010-2012.
Financing: Veolia Environnement.
Project management: AGRISUD.
Partners: GoodPlanet - Etc Terra, IRD - Institut de Recherche pour le Développement, UMR Eco&Sol, LRI - Laboratoire des Radioisotopes de l’Université d’Antananarivo.

AGRO-FORESTRY AND FARM FORESTRY IN ITASY:
Expected results: 1,200 agricultural VSEs supported, carbon footprint evaluation.
Project management: GoodPlanet - Etc Terra, AGRISUD.
Partners: GoodPlanet - Etc Terra, AMADESE - Association Malagasy pour le Développement Economique, Social et Environnemental, IRD-LRI, IOGA - Institut et Observatoire de Géophysique d’Antananarivo.

LEARNING CYCLES IN DISSEMINATION OF AGRO-ECOLOGICAL TECHNIQUES:
Expected results: 34 participants from 20 Madagascan organisations trained in good agro-ecological practices.
Project management: GoodPlanet - Etc Terra, AGRISUD.
Partners: GoodPlanet - Etc Terra, AMADESE - Association Malagasy pour le Développement Economique, Social et Environnemental, IRD-LRI, IOGA - Institut et Observatoire de Géophysique d’Antananarivo.

IMPROVING THE CAPACITY OF ORGANISATIONS TO SUPPORT INCOME-GENERATING ACTIVITIES IN RURAL AREAS – HIGH PLATEAUX OF MADAGASCAR:
Expected results: 60 Madagascan organisations with improved capacity to promote income-generating farming activities.
Financing: European Union, AGRISUD, CITE.
Project management: AGRISUD.
Partners: CITE.
MOROCCO

LEARNING CYCLE IN DISSEMINATION OF AGRO-ECOLOGICAL TECHNIQUES:
Expected results: 21 Moroccan and Tunisian participants trained, 1 good practice guide for sheep farming in Southern Morocco.
Budget: €32K over 2011 - 2012.
Financing: CDC, ORMVAO - Office Régional de Mise en Valeur Agricole de Ouarzazate (ORMVAO).
Project management: AGRISUD.
Partners: ORMVAO.

PROFESSIONALISING FAMILY AGRICULTURE IN THE OASES OF ZAGORA, TINGHIR AND OUARZAZATE:
Expected results: 120 agricultural VSEs supported, organisation of the sector and access to tourism facilities, notably the Accor hotels.
Budget: €59K over 2010-2012.
Financing: Accor, MC² Partenaire/In Extenso, Fondation Naturex.
Project management: AGRISUD.
Partners: Cœur de Palmer, ORMVAO - Office Régional de Mise en Valeur Agricole de Ouarzazate, AMAID.

IMPROVING SERVICES TO OLIVE OIL PRODUCERS IN OULED MASSAOU - TOUIZA PROJECT:
Expected results: El Mohamadia oil cooperative supported within a Social Economy and Solidarity framework.
Financing: CFSI - Comité Français pour la Solidarité Internationale, AGRISUD.
Project management: AGRISUD.
Partners: El Mohamadia Oil Cooperative, Cœur de Palmier, AMAID, ORMVAO - Office Régional de Mise en Valeur Agricole de Ouarzazate.

PROFESSIONALISING FRUIT FARMING AND PRODUCTION VALUATION, IGRAN N’ASNI, AL HAOUZ PROVINCE:
Expected results: 35 agricultural VSEs supported, one cooperative created, the sector organised and access to the Club Med market.
Budget: €79K over 2010-2013.
Project management: AGRISUD, Fondation Norsys.

NIGER

ACCESS TO DRINKING WATER FOR POOR POPULATION BY CREATING VSEs AROUND NIAMEY AND DOSSO:
Expected results: diagnosis and proposals made for action.
Budget: €16K over 2012-2013.
Financing: Veolia Environnement.
Project management: AGRISUD.

DR CONGO

SUPPORTING SUSTAINABLE DEVELOPMENT OF AGRICULTURE VALUE CHAINS IN NORTH KIVU, NORTH KIVU PROVINCE:
Expected results: 1,680 agricultural VSEs supported.
Budget: €1,889K over 2009-2013.
Financing: European Union, Biochem, AGRISUD.
Project management: AGRISUD.
Partners: SYDIP - Syndicat de Défense des Intérêts des Paysans, CAVTK, France Volontaires.

SUPPORTING SUSTAINABLE DEVELOPMENT OF FARMING ACTIVITIES AND VALUE CHAINS IN LUOZI, BAS-CONGO PROVINCE:
Expected results: 2,000 agricultural VSEs supported.
Budget: €2,676K over 2010-2014.
Financing: European Union, VVV - Villages et Villles à Vivre, Office congolais des routes, CTB - Coopération Technique Belge.
Project management: AGRISUD.
Partners: CAFOD - Centre Régional d'Appui et de Formations pour le Développement, France Volontaires.

SUPPORTING SUSTAINABLE DEVELOPMENT OF HOUSEHOLD ACTIVITIES IN THE COASTAL ZONES OF MUANDA, BAS-CONGO PROVINCE:
Expected results: an organised circuit for marketing products from fishing, 230 agricultural VSEs supported.
Budget: €103K over 2011-2012.
Financing: European Union, IFAID - Institut de Formation et d’Appui aux Initiatives de Développement, AGRISUD and partners to be identified.
Project management: AGRISUD.

SUSTAINABLE AGRICULTURE AND PROFESSIONALISING AGRICULTURE VALUE CHAINS IN MAYOMBE – BAS-CONGO PROVINCE - LUKULA AND TSHELA TERRITORIES:
Expected results: 2,300 agricultural VSEs supported, “Petit Kwilu” coffee distribution circuit, environmental management consulting system.
Budget: €2,700K over 2012-2016.
Financing: European Union, IFAID - Institut de Formation et d’Appui aux Initiatives de Développement, AGRISUD and partners to be identified.
Project management: AGRISUD.

SAO TOME E PRINCIPE

PROFESSIONALISING ORGANIC, FAIR-TRADE PEPPER AND SPICE DISTRIBUTION CIRCUITS:
Expected results: 300 pepper and spice production VSEs supported, organised export channel.
Financing: FIDA, AGRISUD, Hom&Ter.
Project management: PAPAFPA - Programme d’Appui Participatif à l’Agriculture Familiale et à la Pêche Artisanale, AGRISUD et Hom&Ter en appui.
Partners: PAPAFPA, Hom&Ter Développement.

SENEGAL

BOOSTING LOCAL FRESH PRODUCE SUPPLY CHANNELS FOR CLUB MED IN CAP SKIRRING:
Expected results: 60 market-gardening VSEs supported, an organised circuit with 174 market gardeners and access to Club Med.
Budget: €95K over 2009-2013.
Financing: Club Med.
Project management: AGRISUD.
Partners: Jappoo Développement, CPAS - Centre de Promotion Agricole et Sociale de Diembéring.

TUNISIA

PROMOTION OF LOCAL SUPPLY CHANNELS ON THE ISLAND OF DJERBA:
Expected results: 15 agricultural VSEs supported (diversified production), organised supply channels and access to Club Med.
Budget: €30K over 2012-2014.
Financing: Club Med.
Project management: AGRISUD.
Partners: Commissariat Régional pour le Développement Agricole de Médenine, Société Mutuelle de Base de Services Agricoles El Yassmine.

LEARNING CYCLE IN DISSEMINATION OF AGRO-ECOLOGICAL TECHNIQUES:
Expected results: 12 producers and 10 agricultural technicians/engineers trained in good agro-ecological practices.
Budget: €16K.
Financing: “Un Monde par Tous” Foundation
Project management: AGRISUD.
**PLANNED OPERATIONS**

**Estuary Province - Madagascar**

**BENIN**

LEARNING CYCLES IN DISSEMINATION OF AGRO-ECOLOGICAL TECHNIQUES:

Expected results: 25 participants from 14 organisations in Benin and Mali trained in good agro-ecological practices, follow-up system.

Budget: €32K over 2013.

Financing: Fondation Caritas.

Project management: AGRISUD.

Partners: professional organisations of South Benin.

**CAMBODIA**

LEARNING CYCLE IN DISSEMINATION OF AGRO-ECOLOGICAL TECHNIQUES:

Expected results: 20 to 25 participants from 15 to 20 Cambodian organisations trained in good agro-ecological practices.

Budget: €20K over 2013.

Financing: Hauts-de-Seine Local Council, participating organisation.

Project management: AGRISUD.

**IVORY COAST**

REINFORCING CAPACITIES OF LOCAL ORGANISATIONS TO DISSEMINATE AGRO-ECOLOGICAL PRACTICES:

Expected results: 25 participants from 10 organisations (NGOs and PO) trained in good agro-ecological practices, monitoring system.

Budget: €35K over 2013.

Financing: French Foreign Affairs Ministry - FSD, AGRISUD and partners.

Project management: AGRISUD.

Partners: NGOs and Ivorian producers’ organisations.

SUSTAINABLE PERIURBAN AGRICULTURE AS A LEVER FOR GROWTH, TO FIGHT POVERTY AND PROMOTE FOOD SECURITY IN IVORY COAST:

Expected results: update of the feasibility study conducted in 1999.

Budget: to be determined.

Financing: to be found.

Project Management: AGRISUD.

Partners: the Ivorian organisations concerned.

**FRANCE**

SUPPORT TO SET UP THE “LA RUCHE” PROJECT - PAYS MÉDOC:

Expected results: identification of a site to set up the project, financial engineering, design of the organisation.

Budget: €32K over 2013.

Financing: EU, Aquitaine Regional Council, Gironde Local Council, Pays Médoc.

Project management: AGRISUD.

Partners: Pays Médoc, local municipalities, Chamber of Agriculture, SAFER.

**GABON**

LEARNING CYCLES IN DISSEMINATION OF AGRO-ECOLOGICAL TECHNIQUES:

Expected results: 40 Gabonese participants from the IGAD trained in good agro-ecological practices in 2 learning cycles.

Budget: €50K over 2013.

Financing: State of Gabon, Agence Française de Développement/PRODIAG.

Project management: IGAD, operator AGRISUD.

CREATION OF A PILOT MANIOC PROCESSING UNIT IN GAMBA:

Expected results: 1 pilot manioc transformation unit.

Budget: €30K.

Project management: IGAD, support from AGRISUD.

**DESIGN OF A PROFESSIONAL PROFESSIONAL COURSE FOR THE “LA RUCHE” PROJECT - PAYS MÉDOC:**

Expected results: identification of the support requirements of future market gardeners and design of the training course.

Budget: €13K over 2013.

Financing: Aquitaine Regional Council.

Project Management: AGRISUD.

Partners: CFPPA - Centre de Formation Professionnelle et de Promotion Agricole de Bordeaux Gironde.

**SUSTAINABLE PERIURBAN AGRICULTURE AS A LEVER FOR GROWTH, TO FIGHT POVERTY AND PROMOTE FOOD SECURITY IN IVORY COAST:**

Expected results: survey of producers’ organic matter requirements and implementation of a compost experimentation protocol.

Budget: €40K over 2012-2014.

Financing: Toiletttes du Monde.

Project management: IGAD, support from AGRISUD.

Partners: Toiletttes du Monde.

**SUPPORT TO SET UP THE “LA RUCHE” PROJECT - PAYS MÉDOC:**

Expected results: identification of a site to set up the project, financial engineering, design of the organisation.

Budget: €32K over 2013.

Financing: EU, Aquitaine Regional Council, Gironde Local Council, Pays Médoc.

Project management: AGRISUD.

Partners: Pays Médoc, local municipalities, Chamber of Agriculture, SAFER.

**FRANCE**

SUPPORT TO SET UP THE “LA RUCHE” PROJECT - PAYS MÉDOC:

Project management: AGRISUD.

Partners: Pays Médoc, local municipalities, Chamber of Agriculture, SAFER.

**DESIGN OF A PROFESSIONAL PROFESSIONAL COURSE FOR THE “LA RUCHE” PROJECT - PAYS MÉDOC:**

Expected results: identification of the support requirements of future market gardeners and design of the training course.

Budget: €13K over 2013.

Financing: Aquitaine Regional Council.

Project Management: AGRISUD.

Partners: CFPPA - Centre de Formation Professionnelle et de Promotion Agricole de Bordeaux Gironde.

**GABON**

LEARNING CYCLES IN DISSEMINATION OF AGRO-ECOLOGICAL TECHNIQUES:

Expected results: 40 Gabonese participants from the IGAD trained in good agro-ecological practices in 2 learning cycles.

Budget: €50K over 2013.

Financing: State of Gabon, Agence Française de Développement/PRODIAG.

Project management: IGAD, operator AGRISUD.

CREATION OF A PILOT MANIOC PROCESSING UNIT IN GAMBA:

Expected results: 1 pilot manioc transformation unit.

Budget: €30K.

Project management: IGAD, support from AGRISUD.

**FRANCE**

SUPPORT TO SET UP THE “LA RUCHE” PROJECT - PAYS MÉDOC:

Expected results: identification of a site to set up the project, financial engineering, design of the organisation.

Budget: €32K over 2013.

Financing: EU, Aquitaine Regional Council, Gironde Local Council, Pays Médoc.

Project management: AGRISUD.

Partners: Pays Médoc, local municipalities, Chamber of Agriculture, SAFER.

**DESIGN OF A PROFESSIONAL PROFESSIONAL COURSE FOR THE “LA RUCHE” PROJECT - PAYS MÉDOC:**

Expected results: identification of the support requirements of future market gardeners and design of the training course.

Budget: €13K over 2013.

Financing: Aquitaine Regional Council.

Project Management: AGRISUD.

Partners: CFPPA - Centre de Formation Professionnelle et de Promotion Agricole de Bordeaux Gironde.
HAITI

BOOSTING THE LOCAL ECONOMY BY REINFORCING THE MANIOC AND GROUNDNUT VALUE CHAINS:
Expected results: 200 agricultural VSEs supported, 5 transformation units professionalised.
Budget: $100K over 2013-2014.
Financing: Oxfam.
Project management: AGRISUD.
Partners: GRADIMIRH.

SUSTAINABLE DEVELOPMENT OF THE LIMBÉ RIVER BASIN AND MEASUREMENT OF THE ENVIRONMENTAL IMPACT OF FARMING ACTIVITIES – NORTH HAITI:
Expected results: 700 agricultural VSEs supported, carbon footprint assessment.
Financing: Agence Française de Développement, Aquitaine Regional Council, others.
Project management: AGRISUD, Etc Terra.
Partners: GRADIMIRH - Groupe de Recherche-Action pour le Développement Intégré du Milieu Rural Haitien, Université d’Etat d’Haiti – Agronomy Faculty.

LAOS

FORESTRY AND AGRO-ECOLOGY IN MOUNTAINOUS ZONES OF NORTHERN LAOS / DISTRICTS OF VIENGKHAM AND PAKXENG - LUANG PRABANG PROVINCE:
Expected results: 900 agricultural VSEs supported in 30 villages of 2 districts among the poorest in the country (Viengkham and Pakxeng area).
Financing: Agence Française de Développement, AGRISUD and partners.
Project management: AGRISUD, Etc Terra.
Partners: SAEDA - Sustainable Agriculture & Environment Development Association, Université Souphanouvong of Luang Prabang, PAFO - Provincial Agriculture & Forestry Office Luang Prabang.

SUPPORT FOR THE NORTHERN UPLAND DEVELOPMENT PROGRAMME:
Expected results: the agricultural departments of 3 provinces in the north of Laos enhanced in their capacity to promote agro-ecological systems among vulnerable populations in 9 districts.
Budget: €100K over 2013-2014.
Financing: Agence Française de Développement.
Project management: Sofreco, support from AGRISUD.

MADAGASCAR

SECURING FOOD SECURITY IN THE SUBURBS OF ANTANARIVO AND SUPPORTING THE WOOD ENERGY SECTOR:
Expected results: 2,000 family-run agricultural VSEs growing and diversifying their production for markets in the capital and secondary urban centres.
Financing: European Union, AGRISUD, Etc Terra.
Project management: AGRISUD, Etc Terra.
Partners: AMADÈSE.

ADAPTING AGRICULTURAL PRACTICES TO CLIMATE CHANGE - MAHATAFITA:
Expected results: 600 farming families in 6 municipalities in Itasy with enhanced production practices to cope with climate change.
Financing: Agence Française de Développement, IFAID, AGRISUD and partners.
Project management: AGRISUD, Etc Terra.
Partners: IFAID - Institut de Formation et d’Appui aux Initiatives de Développement, Université d’Antananarivo (ESSA).

HOLISTIC FOREST CONSERVATION PROGRAMME (PHCF - PHASE II):
Expected results: support for populations neighbouring two REDD+ projects (Reduction of Emissions from Deforestation and the Degradation of the Forests) to develop alternative activities and practices to slash-and-burn farming.
Financing: Agence Française de Développement, FFEM, Air France.
Project management: Etc Terra, AGRISUD.
Partners: WWF, AVSF - Agronomes et Vétérinaires Sans Frontières, APDRA - Association pour la Pisciculture et Développement Rural en Afrique, Antananarivo University.
MOROCCO

SUPPORTING PROFESSIONAL STRUCTURING IN FAVOUR OF SUSTAINABLE AGRICULTURE IN THE PROVINCES OF SOUTHERN MOROCCO - TAMOUNT PROJECT:

Expected results: 135 farms supported in 11 villages, 7 cooperative groups created/reinforced, short supply circuits boosted.

Budget: €60K over 2013-2014.

Financing: Aquitaine Regional Council, Fondation Crédit Coopératif (pending), AGRISUD and partners.

Project management: AGRISUD.

Partners: ORMVAO - Office Régional de Mise en Valeur Agricole de Ouarzazate, Association Cœur de palmier, AMAID.

LIVESTOCK REARING GOOD PRACTICE GUIDE FOR SOUTHERN MOROCCO:

Expected results: translation into Arabic and circulation of the guide.

Budget: €15K.

Financing: application made to the Crédit Agricole Marocain.

Project management: AGRISUD.

Partners: ORMVAO - Office Régional de Mise en Valeur Agricole de Ouarzazate.

NIGER

ACCESS TO DRINKING WATER FOR MARGINALISED POPULATIONS BY SUPPORTING DEVELOPMENT OF VSES IN THE SUBURBS OF DOSSO:

Expected results: currently being identified.

Budget: to be determined.

Financing: Veolia Environnement, others.

Project management: AGRISUD.

DR CONGO

LEARNING CYCLES IN DISSEMINATION OF AGRO-ECOLOGICAL TECHNIQUES:

Expected results: 20 participants in the APROFIL project and operational partners trained in good agro-ecological practices.

Budget: €23K.

Financing: European Union, AGRISUD.

Project management: AGRISUD.

SAO TOME E PRINCIPE

LEARNING CYCLE IN DISSEMINATION OF AGRO-ECOLOGICAL TECHNIQUES:

Expected results: 20 participants in the organic “pepper, coffee and cocoa” circuits trained in good agro-ecological practices.

Budget: €18K over 2013.

Financing: FIDA - Fonds International pour le Développement Agricole, PAPAFPA - Programme d’Appui Participatif à l’Agriculture Familiale et à la Pêche Artisanale.

Project management: PAPAFPA, Operator AGRISUD.

Partners: PAPAFPA, the agricultural cooperatives concerned.

SENEGAL

BOOSTING AGRICULTURE IN THE DIOURBEL REGION:

Expected results: 120 market gardening operations supported to implement agro-ecological practices and to promote short-circuit productions.

Financing: Aquitaine Regional Council, AGRISUD.

Project management: AGRISUD.

Partners: IFAID - Institut de Formation et d’Appui aux Initiatives de Développement, Jappoo Développement.

IMPROVING DIET PRACTICE IN THE RURAL COMMUNITY OF DIEMBERING IN BASSE CASAMANCE:

Expected results: 294 families with improved diet practices.

Budget: €55K.

Financing: to be found.

Project management: AGRISUD.

Partners: CPAS - Centre de Promotion Agricole et Sociale de Diembéring.

ENHANCING LOCAL FRESH PRODUCE SUPPLY CHANNELS IN MBOUR - CAPE SARABA:

Expected results: 40 VSEs supported, distribution channels and access to the Club Med.

Budget: €12.5K over 2013.

Financing: Club Med.

Project management: AGRISUD.

Partners: Jappoo Développement.

ENHANCING FAMILY FARMS AND FOOD SECURITY IN MBOUR DEPARTMENT IN SENEGAL:

Expected results: 110 VSEs supported (quantitative and qualitative improvement in production), distribution channels organised, 5 support organisations reinforced and 1 network of master farmers created to disseminate agro-ecology.

Financing: applied for from the Fondation de France / CFSI.

Project management: AGRISUD.

Partners: Jappoo Développement.
AGRISUD has a constant focus on boosting the action capacities of NGOs, associations, professional groups, and also those of its own project teams. Transfers of skills are made via learning cycles.

Learning cycles

Agro-ecological practices
Based on the “Agro-ecology in Practice” guide (Agrisud, 2010), this course helps participants learn these practices. It is based on transferring methods and tools to:

- understand agro-ecology and its economic, social and environmental dimensions;
- understand the sustainable management of a farming system;
- analyse the context of operation and identify the appropriate agro-ecological practices;
- be able to transmit these practices.

Design and implementation of VSE projects
This cycle is based on a transfer of skills and know-how in implementing sustainable development projects focusing on very small enterprises (VSE).
In particular, it enhances the organisations’ ability to:

- perform a diagnosis and write up a proposal for intervention;
- implement a support project;
- take part in evaluating, capitalising on and publicising the achievements of the projects.

2012 sessions

5 sessions of the Learning Cycle in Agro-ecological practices
- In Cambodia, from 09 to 15 January in Siem Reap, 20 participants from 8 organisations: PADEK, Louvain Development, Rachana, Oxfam America, GREI, PDA Siem Reap, SRER Khmer, Agrisud Siem Reap.
- In Morocco, from 21 to 29 February in Ouarzazate (Province of Ouarzazate), 21 technicians and engineers from the ORMVAO: Service Production Agricole, SVOP - Bureau de la Vulgarisation et des Crédits, S/CMV 602/01 Idessiane, CMV 614 Kelâa M'Gouna, CMV 601 Tamnetkaït, CMV 603 Agdz, CMV 608 Taïlouine, CMV 610 Tinghir, Subdivision Boumalne, Subdivision Ouarzazate, CTB - Projet de Développement Intégré d’Iknouen et Ait El Fersi.
- In Madagascar, from 21 to 28 March in Antanetimboahangy (Itasy Region), 20 participants from 13 organisations: Centre Ilofosana, Cellule d’Appui Technique de la Région Itasy, GTDR Itasy, Institut et Observatoire de Géophysique d’Antananarivo (IOGA), Laboratoire des Radio-isotopes (LRI), Fondation GoodPlanet / Etc Terra, ADDM, GSDM, EDM Mahajanga, AMADESE, CICAFE, APDRA, Agrisud Madagascar.
- In Tunisia, from 08 to 12 October in Djerba, 12 producers and 10 agricultural technicians and engineers: CTV Houmet Souk, CTV Midoun/El May, CRDA Médénine, SMBSA Midoun/El May, Association des habitants d’El Mourouj 2.
- In Madagascar, from 05 to 10 November in Antanetimboahangy (Itasy Region), 14 participants from 7 organisations: DRDR Itasy, CSA Miainarivavo, GTDR Itasy, ASA, Taeozaka, CEFTAR, Centre de formation Ilofosana.

These sessions were held thanks to the support of Aquitaine Regional Council, the Agence Française de Développement, the Star’s Service group, the Un Monde par Tous foundation, the ORMVAO, the Caisse des Dépôts, and the participation of the organisations.

2 sessions of the Learning Cycle in design and implementation of projects focusing on VSEs
- In Benin (Cotonou), from 03 to 07 December, 19 participants from 4 organisations: Ministry for the Environment, Habitat et Urbanisme du Bénin, 9ème arrondissement Cotonou, Direction Services Techniques Mairie Cotonou, Direction Services Economiques et Financiers Mairie Cotonou, Direction Ressources Humaines Mairie Cotonou, 13ème arrondissement Cotonou, Direction Prospective et Développement Municipal Mairie Cotonou, Direction des Services à la Population Mairie Cotonou, Cellule Technique Cotonou du Projet Paris-Cotonou-Abidjan.
- In Ivory Coast (Abidjan), from 10 to 14 December, 22 participants from 15 organisations: FEREADD, DGDDL, MINESUDD, Education et Paix, Université des Collectivités, DAD / MCLAU, District d’Abidjan, Commune Verte International, UVICOCI, Mairie d’Adjamé, District d’Abidjan, Mairie d’Abobo, CI-Ecologie, Mairie de Cocody, ONG Femme Côte d’Ivoire Expérience, Cellule Technique Abidjan du Projet Paris-Cotonou-Abidjan.

These two sessions were organised within the framework of the Paris-Cotonou-Abidjan project (co-financed by the European Union, City of Paris, France Volontaires, AGRISUD).
The network of 144 beneficiary organisations of cycles held by Agrisud since 2004

- **2 in Brazil**: ABIIO, Rede Ecologica.

- **1 in Cameroon**: GIPA - Groupement InterProfessionnel des Artisans.

- **2 in Congo**: AGRIDEV - Asso. congolaise d’Appui au Dév., HPP - Human People to People.

- **13 in Ivory Coast**: FEREAAD, DGDDL, MINESUDD, Education et Paix, Université des Collectivités, DAD / MCLAU, District d’Abidjan, Commune Verte International, UVICOCI, Mairie d’Adjarné, District d’Abidjan, Mairie d’Abobo, CI-Ecologie, Mairie de Cocody, ONG Femme Côte d’Ivoire Expérience, Cellule Technique Abidjan du Projet Paris-Cotonou-Abidjan.

- **3 in France**: EMA - Promotion des métiers de la terre en Gironde, Renâéra International, Solidarité Bordeaux-Chiapas.

- **2 in Gabon**: IGAD - Institut Gabonais d’Appui au Développement, World Promus.

- **1 in Guinea**: Association Normandie-Guinée

- **1 in India**: HARC - Himalayan Action Research Center.

- **1 in Mali**: IMT - Institut Malien de Technologie.

- **1 in Mauritania**: Croix rouge Française (food facility project).

- **1 in Sri Lanka**: Sustainable Agricultural Dev. Foundation.

- **1 in Vietnam**: Xuan-Printemps.
